Port Tail Parting

Part the natural hair in the desired ponytail placement area.

Clip in the "Secret Pony" underneath the parted section, ensuring the extension remains hidden and blends naturally. Gather the Secret Pony and your hair, blending it with your natural hair, and tie up your ponytail.

For a high ponytail, install the extension upside down, allowing the strands to flow naturally when gathered into a ponytail.

Style as desired, achieving a voluminous, secure, and natural looking ponytail without any visible attachment points.

Best of all, it is not painful at all and can be worn all day with no commitment and a 2-second removal
